

Door & Cabinet Hardware

2022
CATALOG

2022 CATALOG

OUR company guarantees quality design and financial advantage for our customers; it hopes that the catalogue will open the way for future cooperation.

Door & Cabinet Hardware

THE MOSLEHI GROUP started their career in 1983 in the area of designing and Manufacturing of door & cabinet hardware, locks and fittings By establishing their factory In Tehran the cradle of art and industry.

Thirty-nine years presence in this field with the purpose of development in the basis of raise of quality and innovation lead to utilize the most Upgraded world technology along with engineers and experts and preservation of Environmental rules and regulations, security and professional health care Regulations and requirements of technical standards, supply their products According to demands of customers so efficient and with the highest quality to the Market.

THE MAIN INDEX OF CHOOSING DOOR & CABINET HARDWARE:

The basis of design and aesthetics of Technical structure and applications of door & cabinet hardware, are on the basis of Engineering and aesthetics. Aerodynamic and ergonomic design of door and cabinet handles by eliminating sharp parts and also utilizing of classic and modern designing methods, make a good sense and nice feeling for gripping products in your hands.

THE QUALITY OF GOODS:

Utilizing of the latest world method of manufacturing, also continues testing Of the fittings in the laboratory of guaranty leads to long term benefits for the Customers.

THE KIND OF RAW MATERIAL:

Brass, zamak and aluminum Technical evaluation in designing, manufacturing and demands of market are our basis of choosing the raw material in production of items. Resistance and durability of door & cabinet hardware of all 3 mentioned alloys are under guaranty up to 10 years of the company and the door & cabinet hardware with the coating of Titanium and chrome and black chrome are under guaranty of 10 years. Please check our logo on the box and our products while purchasing.

COATING

Utilizing the European raw material also being under strict control by the coating Unit leads to uniformity of the end-coating with the highest quality.

 MAB	 SN	 PVD	 BLACK
 COFFEE	 MSN	 CP	 WHITE
 LRX	 MAB MATT	 BR-PVD	

DIE-CASTING

In concern to manufacturing, raw material bar arrives at the foundry get melted Inside the die-casting oven. Afterward the process of diecasting starts with fully automatic machines.

THE MAKING OF THE MOLDS

Producing of all kind of the molds like die-casting, forged, cut and etc., Implemented by the professional experts with utilizing the specific software and most developed CNC machines.

REFINERY

In concern to the image of the preserving and protecting the environment, The outlet water of the industrial refinery which is implemented in the company used to create a dripping irrigation system for green area of the company,

ROBOTS

Using automatic machines and robots for purpose of deburring in the workshops Leads to highest quality and uniformity of the products during the production Joined back together.

LABORATORY

The laboratory of the **MOSLEHI INDUSTRIAL GROUP** equipped with testing Machines which measures the rusting in the artificial environments by the spraying salt, identifying of the density of the films, the stickiness of the coatings, by the mentioned test they could assured that the production is under close control.
